- ☐ Graphing calculator – optional

\*Purchasing a graphing calculator is a great investment at this time as many of our 7<sup>th</sup> and 8<sup>th</sup> graders are doing high school math. DaVinci Academy will provide TI-84 Plus Silver Edition calculators for students while they are at school. The number one complaint from high school math teacher is that incoming 9<sup>th</sup> graders are not yet familiar with graphing calculators. This is an optional purchase, but one that will last through college level courses. The TI-84 Plus Silver Edition CE and the TI-89 Titanium Edition are preferred, but there are cheaper options that also work.
