

Northwestern University's Center for Talent Development

ABOVE-GRADE LEVEL ASSESSMENT OPPORTUNITY
| LEARN MORE ABOUT YOUR STUDENT'S
STRENGTHS AND ABILITIES

Northwestern University's Midwest Academic Talent Search (NUMATS) helps advanced learners demonstrate the scope of their academic abilities and provides families and educators with guidance and resources to develop a talent development plan.

Taking the PSAT 8/9 test through NUMATS is step one. The PSAT 8/9 gives young students (grades 3-6) access to challenging content typically taught in higher grades, reveals what they know and are ready to do, and helps inform decisions about academic programming.
